REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest the recited semiconductor chip with first and second radiation members thermally and electrically connected to a chip sandwiched between them and each having portions exposed from a resin.

Tanaka et al., U.S. Patent No. 5,293,301, discloses a semiconductor device. As shown in the embodiment of Figure 4, the device includes first and second radiation members 35 and 25 which are thermally connected to the semiconductor chip 31, interposed therebetween. Each of the radiation members has a radiation surface for radiating heat from the chip 31 and a portion of each of the radiation members 25 and 35 is exposed from the resin 34. A bonding member 32 and 36 is interposed between each radiation member and the chip.

Tanaka does not disclose that the radiation members are electrically connected to the chip.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy K Potter whose telephone number is 571 272 1842. The examiner can normally be reached on M-F.
